Job Title	• Cyber Security Analyst - Risk Assessment Consultant
Location	• Chennai
Duration	• 6 to 12 Months

Job Overview

We are seeking a detail-oriented Cyber Security Analyst – Risk Assessment Consultant to support our Cybersecurity Solutions Excellence team. The role focuses on gathering and analyzing cybersecurity risk requirements, standardizing risk assessment processes, and ensuring consistent methodologies across projects. The ideal candidate will play a key role in evaluating and managing cyber risks while delivering actionable insights to stakeholders.

Job Responsibilities

- Gather cybersecurity risk assessment requirements from customer contracts, regulatory frameworks, and internal standards.
- Perform comprehensive risk assessments for project-specific and site-specific environments.
- Standardize cybersecurity risk assessment processes using unified templates, tools, and methodologies.
- Harmonize risk assessment practices across multiple projects to ensure consistency and efficiency.
- Analyze and evaluate cybersecurity risks throughout the project lifecycle, from initiation to customer handover.
- Develop dashboards and reports using tools such as Power BI to provide insights to stakeholders.
- Collaborate with internal teams and customers to support risk assessment activities.
- Participate in knowledge transfer sessions, project discussions, and review meetings.
- Provide regular updates in weekly status meetings on progress and deliverables.
- Ensure adherence to organizational standards, templates, and best practices.

Technical Skillsets (Mandatory)

- Strong understanding of cybersecurity risk assessment methodologies.
- Experience in Operational Technology (OT) cybersecurity risk assessments.
- Ability to interpret customer, contractual, and regulatory requirements.
- Hands-on experience in risk analysis, evaluation, and reporting.
- Proficiency in reporting and visualization tools (e.g., Power BI or similar).

Technical Skillsets (Preferred)

- Experience in standardizing and harmonizing risk assessment frameworks.
- Familiarity with global cybersecurity standards and compliance requirements.
- Knowledge of cybersecurity governance and risk management frameworks.
- Experience working in cross-functional and client-facing environments.

Education & Certifications

- Bachelor's degree in Engineering, Cybersecurity, Information Security, or related field.
- IEC 62443-3-2 Certification (or relevant certification in IEC 62443 series) – Mandatory.

Experience

5-8 years' experience.
