### Job Overview

We are seeking a detail oriented Full Stack Developer (MERN Stack) with strong experience in building scalable and high-performance web applications. The ideal candidate should have hands-on expertise in Node.js, React.js, Next.js, along with solid knowledge of SQL/SQLite databases and containerization using Docker.

### Job Responsibilities

- Develop, test, and maintain full-stack applications using the MERN stack.
- Build responsive and high-performance frontend applications using React.js and Next.js.
- Design and develop backend services using Node.js and Express.js.
- Create and integrate RESTful APIs.
- Work with SQL and SQLite databases for data storage, querying, and optimization.
- Ensure database performance through efficient query design, indexing, and optimization.
- Optimize applications for performance, scalability, and security.
- Containerize applications and manage deployments using Docker.
- Collaborate with cross-functional teams (Development, QA, DevOps).
- Participate in code reviews and maintain clean, maintainable code.

### Technical Skillsets (Mandatory)

- 3+ years of experience as a Full Stack / MERN Developer.
- Strong proficiency in Frontend (React.js, Next.js) & Backend (Node.js, Express.js).
- Strong understanding of JavaScript (ES6+), asynchronous programming, and REST APIs.
- Hands-on experience with SQL databases and SQLite.
- Strong knowledge of database design, joins, indexing, and query optimization.
- Experience with Docker and containerization.
- Familiarity with Git version control.
- Strong problem-solving and debugging skills.

### Technical Skillsets (Preferred)

- Experience with cloud platforms (AWS/Azure/GCP).
- Knowledge of CI/CD pipelines.
- Familiarity with microservices architecture.
- Exposure to security best practices in web development.

### Education and Certifications

- Bachelor's degree in Information Technology, Cyber Security, Computer Science, or a related field.
- Relevant certifications are an added advantage.

### Experience

- 1 to 3 years' experience as a Full Stack / MERN Developer.
